## Transportation & Manufacturing

### THE CHALLENGE:

Service drivers at MEWA spend a significant amount of time on the road and undertake a variety of logistical activities. They must have quick and easy access to all of the details for each job on their phone. Additionally, their phones must be charged when arriving at the customer's location in order to book the requested products for the customer (e.g., bed sheet, pillowcase or other). So, providing a case and active holder solution for the company's trucks was critical.

### THE SOLUTION:

#### **Samsung Galaxy XCover Pro + OtterBox uniVERSE Case System + Brodit Active Holder**

In order to meet MEWA's needs, we paired the Samsung Galaxy XcoverPro phone with the OtterBox uniVERSE Case System and Brodit active holder. The field-ready, rugged Samsung device coupled with the versatile, protective OtterBox case that allows for securely attaching it to the Brodit holder without removing the case provided an effective solution for drivers on the go. The Samsung device can be protected with the case and can be placed in the car/truck with the Brodit charging holder to ensure drivers phones are always charged.

### THE IMPACT:

The trio of Samsung, OtterBox and Brodit products provided MEWA the desired solution. Devices are secured and can be charged while the driver is on the go. Furthermore, the drop protection provided by OtterBox's UniVERSE case, allows drivers to load or unload their truck with peace of mind.

### ABOUT OTTERBOX uniVERSE CASE SYSTEM:

OtterBox uniVERSE Case System allows you to expand your phone's features. The uniVERSE case features a slotted rail under its removable accent plate, letting you securely attach and swap powerful modules like vehicle mounts, card readers, charging solutions, speakers and more — without removing your case.

### ABOUT BRODIT ACTIVE HOLDER:

The Brodit range of Active Holders keep your phone's battery fully charged in an active holder, always within easy sight and reach! Neat, discreet and convenient. Custom made with a perfect, firm fit for device with OtterBox uniVERSE case.

### LOCATION

Germany

### SECTOR

Transport

### KEY CHALLENGES

Provide drivers with quick and easy access to job details on their phone while on the go.

### OTTERBOX SOLUTION

Samsung Galaxy XCover Pro phone protected by the OtterBox uniVERSE Case System and the Brodit Active Holder

### ORGANISATION BENEFITS

MEWA's Service Drivers devices are secured while they are on the go between jobs. The uniVERSE case is versatile and means it doesn't need to be switched out when the drivers are not using their Brodit Active Holder. After work hours it can act as a protective case with Drop+ protection for their smartphone
